LABORATORY

OF THE

INLAND REVENUE DEPARTMENT

OTTAWA, CANADA.

BULLETIN No. 170.

Butter.

OTTAWA, December 23, 1908.

W. J. GERALD, Esq.,
Deputy Minister of Inland Revenue,

SIR,—I beg to hand you a report upon 295 samples of butter, collected throughout Canada in October and November last.

All samples have been examined as to content of water, the limit being fixed by the Butter Act at 16 per cent. The fat has been examined by the refractometric test; and wherever the indications seemed abnormally high, further examination has been made.

No foreign fats are present in any of these samples. Excess of water has been found in three samples from the Kingston District, viz.:—Nos. 36067, 36071 and 36072. The three samples in question are stated to be manufactured, or furnished by P. Downham of Pet[illegible].

It is quite apparent that butter is essentially genuine and of high quality, as offered for sale in Canada.

I beg to recommend the publication of this report as Bulletin No. 170.

I have the honour to be, Sir,

Your obedient servant,

A. McGILL,
Chief Analyst.
